PREFACE.

PREFACE.

The Revolutionary ancestry of another one thousand Daughters of the American Revolution is recorded in this Twenty-third Volume of the Lineage Book.

Our growing reference library; the arrangement by Card Catalogue of the Revolutionary soldiers at the Pension Office and the intelligent personal research of individual Daughters are aids which have greatly strengthened our records.

Many additional ancestors have been added to those at first verified and families widely separated geographically have been linked together. These are tied by referring to other numbers and thus lines running through these volumes are unbroken. The personnel of the Revolutionary period is better known each year and it beckons its children of the present day to more patriotic effort.
